Overcoming Grief and Loss - Learn how to come to terms with the pain of losing a loved one.

Losing someone or something dear to us is an experience that we will face at some time in our lives. The thoughts and feelings that follow often lead us into painful times of grief. This booklet is designed to help people find God's help in dealing with overcoming grief and loss.

Overcoming Discouragement- Learn how to find God in the midst of disappointment.

There are many different kinds of discouragement. It can come in the form of criticism or harsh words from people we trust; dashed hopes and dreams, or the failure of our plans; or disappointment of unmet expectations of other people or ourselves. So it is time to deal with the giant of discouragement and how to overcome.

Overcoming Work and Unemployment Issues – Learn how to find your true purpose and honour God at work.

Do you like doing what you were made for- or is it more like you have to be made to do it? Some love their work, others loathe it. Some of us always seem to have too much of it, others not quite enough. But whatever you feel about work, there's one truth you can't escape; work is part of your life's purpose.

Overcoming Family Issues – Learn how to grow together in God's grace.

Is your family like the Waltons or the Simpsons? The Bradys or the Addams? From the minor irritations that bubble on the surface of family life, to more serious undercurrents. This book helps us see how we overcome these problems.

Overcoming Fear – Praying through your fears and anxieties.

Fear of failure, fear of rejection, fear of not mattering, fear of losing a loved one, fear of our own death. Fear is the enemy of the life lived in God. It paralyses us, imprisons us and limits our potential. But the Bible is full of “Fear not”, “do not be afraid” and “take courage”.

Overcoming Addiction – Learn how to walk free from the bondage of compulsive behaviour.

An addiction is more than a problem to be fixed. Addictive behaviour is just the fruit of a much deeper issue- we need to discover the root underneath it.
